

School Quality Surveys: Lake Creek High

Results

School Year: 2022-2023

Details of the Study and Understanding the Results

The parent/guardian and staff surveys were open from Sept. 20 to Oct. 14 and the student survey was open from Sept. 20 to Oct. 21.

Email invitations with unique survey links were sent to parents/guardians and staff. Parents/Guardians could also participate via a public link on the district's website. Parents/Guardians with more than one child attending school in the district could take a shortened survey for each additional child. The parent/guardian survey was translated into Spanish.

Students used their student IDs to access the survey in school.

This report summarizes district-level survey results and breaks them down by participant group. When possible, survey results are compared with those from 2021-2022.

K12 Insight uses census sampling, which provides data reflective of all voices in the community. While all parents/guardians, staff, and students in grades 6-12 were invited to take the survey, not all participated. Statistical tests designed to infer the perceptions of a larger population from a smaller sample size are not appropriate; rather, descriptive statistics provide the most accurate representation of the data. Therefore, the findings herein cannot be generalized beyond the participants. Nevertheless, this study offers valuable insights about the perceptions of parents/guardians, staff, and students in grades 6-12.

Findings for each item in the report exclude participants who did not answer. In charts and graphs, data labels less than 5 percent are not shown. Percentages may not total 100 due to rounding.

Overall School Quality: Comparison by Respondent Type

How would you rate the overall quality of this school?

Net Promoter Score — School

If you had a family member or friend moving to the area, how likely are you to recommend they send their child to this school? (N=365)

Notes: The Net Promoter Score® (NPS) serves as a proxy for public confidence in a school/the district and can potentially be connected to district growth. It is calculated by subtracting the percentage of detractors from the percentage of promoters, which gives a value between -100 and 100. A positive score means there are more people promoting a school/the district than detracting from it. Passives represent individuals who do not have an unequivocal opinion about their school or the district. The Net Promoter Score has been rounded to a whole number.
